Edge of product

Graphical elements on the two sides of the mask must be independent.
They cannot hang over from one side to the other.

resolution: min. 300 DPI
colours: CMYK
formats: TIFF, PDF, EPS, AI, CDR

The green line indicates the area all non-background object-texts, logos, etc.
The dash line indicates the visible graphics on the final product after stitching.
The pink outline indicates the maximum size of graphic visible on the cut fabric.
